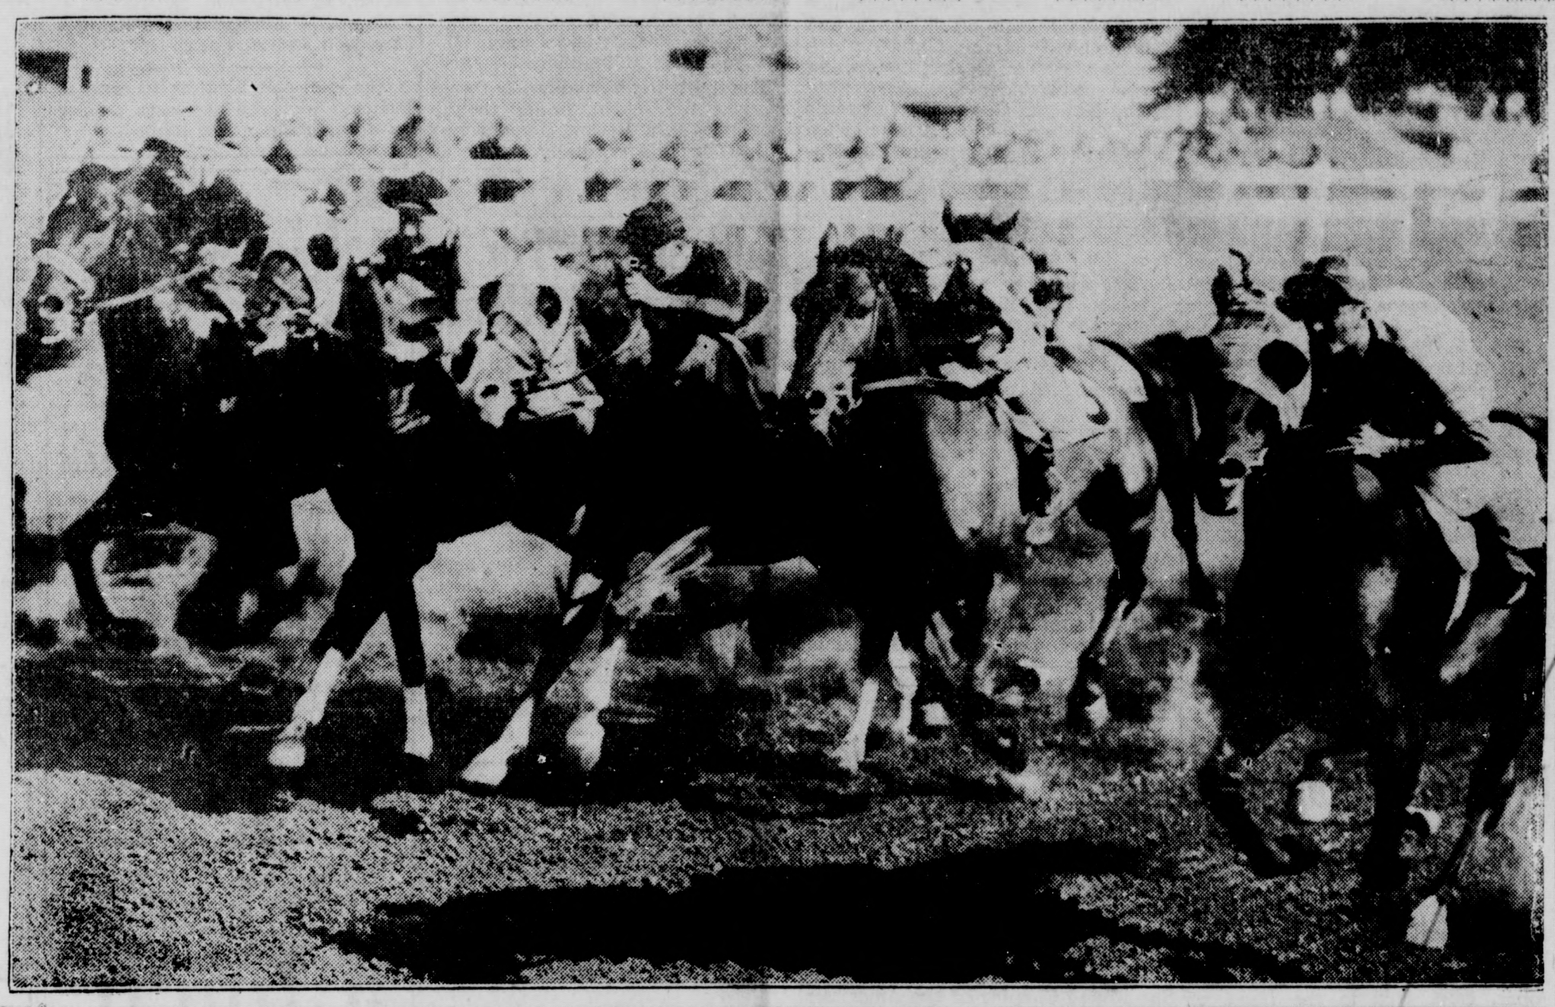
Horses In Action On Opening Day At Tanforan



With a brilliant array of proud horseflesh on the grounds—the strongest eastern contingent any northern California track has ever boasted—Tanforan will usher in the major fall racing season Thursday of next week, October 8. Racing will be conducted at the historic San Bruno course each week day except Monday.

The $2,000 added Opening Handicap at six furlongs headlines the first day of sport, with a strong supporting card of seven additional races to round out the program. The inaugural feature will be all the more interesting because Tanforan has the strongest sprint division in years and there is no telling who will emerge the victor with horses of the calibre of Red Wagon, Uppermost, Primulus, Blue Boot, Torolee, Alviso, Lady Bowman, competing for the purse.

Some 900 horses are assembled for the meeting and the thoroughbred colony this season is ably represented in all divisions from stake performers to the lowliest plater—thus there will be horses galore to fill every type of race carded. Of course, the strongest western stables on the coast are represented as usual; in addition to this, J. W. Marchbank, executive director of Tanforan, has made a special effort to induce new eastern millionaire stables to ship west—with gratifying results. Racegoers will see proud eastern colors this season that have never appeared at Tanforan before when several notable eastern nabobs make their debut at the historic San Bruno course this fall.

Presiding over the 25 day meeting is one of San Francisco's pioneer racing officials, Floyd L. McKenney, who has been connected with Tanforan in one capacity or another throughout its entire modern phase. Presiding Steward McKenney has worked tirelessly for the return of racing to California and for the betterment of the sport.

HORSE SHOW TO BE FEATURED BY COUNTY FIESTA

Will Endeavor To Emulate Early Days In Exhibition At Flower Show

One of the most picturesque early day horse shows ever staged in California will be a part of the second annual San Mateo County Products and Floral Fiesta on October 11, it was announced today by Superior Judge Maxwell McNutt, who will be in charge.

Headed by Louis O'Neal, San Jose attorney, California's leading exhibitors, horsemen and horsewomen will perform in the show, with O'Neal's fine string of fifteen palominos and fifteen blacks the first entries in the exhibition section of the show.

Many of the state's outstanding horses, which captured prizes in the state fair at Sacramento, will also enter.

Expert horsemen and horsewomen, many nationally known, will offer some of the most stupendous riding feats ever seen in such exhibition.

There will be relay races and flag races and a score or more of other spectacular events and stunts for which California horsemen have become noted.

Judge McNutt said he would endeavor to establish a purse for the best rein cow horses, that there would be a bridle horse class and a top reined cow horse class.

"We will stage an early day fiesta horse show such as our county enjoyed when California was under Spanish rule. For those old-timers who can recall the old horse shows on our picturesque coastside this event will revive memories of a vigorous past.

Council Passes Milk Ordinance

Much Important Business Is Transacted At Monday Evening Session

An important amendment to Ordinance No. 157 of the City of Daly City was passed unanimously at the regular council meeting, Monday evening of this week. The amendment concerned distribution of milk and cream within the city limits. Specifications state that milk sold in Daly City must be pasteurized in San Mateo County and produced from dairies which are easily accessible by the San Mateo County director of health and welfare. Distributors are required to place their names plainly upon milk bottles or caps of the containers.

Hillcrest Drive is to be widened and new gutters and curbs are to be constructed. This improvement was precipitated by the unanimous passing of a resolution by the city council. The State Division of Highways and the city is to undertake this work jointly. Gas tax money will be used to carry on construction.

H. R. Miller, a Daly City resident, requested of the city council a free license to solicit business in this city for his electrical appliance trade. Miller displayed before the council advertising newspapers which are distributed free in Daly City and which have to pay no license. "These advertisements lead to many hundred times the volume of business which I carry on," Miller declared, "yet they pay no fee, no license—nothing for their special privilege."

The council promised to take Miller's request under advisement

DALY CITY KIDS TO HAVE PARTY

Merchants And American Legion To Sponsor Hallowe'en Carnival

The local American Legion Post and Daly City Merchants are to sponsor a community Hallowe'en carnival for the children again this year.

Cleo Miller, Harry Kuse, Orville Talmadge, Ed Trier, L. Reiley, L. Shaw, L. Hill, H. Anderson, A. Jacobsen, J. DeRung, W. E. Pitschke, Chas. Williamson, A. Boynton and O. Clanton compose the general committee to conduct the carnival.

Preliminary plans for the show were made Wednesday of this week, when heads of the committe met at the City Hall. Another committee meeting will be held in the Daly City Record office next Sunday morning at 9 o'clock to make further plans.

The carnival this year will be similar to the one of 1935. Miller, chairman of the sponsoring committee, predicts that the show this year will be "the party of the year" for local children.

NEWSPAPER WEEK

Monday of next week will mark an important event in the march of every community served by a local newspaper.

Newspaper week begins on that date and will continue through from October 5 to 12.

You should be impressed with the fact that this institution serves you and the entire citizenry of the community better than any other known medium.

From infancy to finis the local paper has an appeal for you in that it records the happenings each day and week in which you and your neighbors are vitally interested.

You should take an interest in your own newspaper. Subscribe for it; if you are conducting a business, give it your support in the way of advertising—it usually repays ten-fold. If you hear of any news that would be of interest to the community at large, relay it to your newspaper or one of its reporters. Do all you can to build it up—and in return you will reecive benefit by the progress and upbuilding of the community in which you live.

The residents of Daly City and others are invited to call at the Daly City Record office, 3317 San Jose avenue, and inspect our plant.

A Marine Parade, Aerial Display Regatta And Ball On Nov. 12 Program

A marine parade, an aerial display, the Fourteenth Annual Pacific Coast Championship Regatta and the Navy Ball are highlights of the tentative program for Harbor Day.

Harbor Day will be November 12, first day of San Francisco's part in the four-day celebration for the opening of the San Francisco-Oakland Bay Bridge.

"Crossing Oceans" A Modern Miracle

Grace Presbyterian Church will have as pulpit guest, Sunday morning at 11 o'clock, Mr. Oscar Zimmerman, a missionary to the seamen of the world. His story will include his recent experience of traveling ten thousand miles by faith. Those who feel that this materialistic world faith in God has no place are urged to hear his marvelous story.

In the evening the pastor, John R. Stevenson, will speak on "Taking Your Life in Your Hands."

Carpenters Back Roosevelt Policy

Carpenters and Joiners of America, Local Union No. 36, today announced its vote to support the re-election of President Franklin D. Roosevelt.

The action was taken in behalf of more than 750 members in Alameda County, announced P. Taylor, 1710 Eighty-ninth avenue, Oakland, the union's recording secretary.

SALES AT TANFORAN TO BOOST OUR GAME

By J. W. MARCHBANK

There is to be a big sale of thoroughbreds at Lexington, Kentucky, beginning Monday, October 19, conducted by E. J. Tranter, the man who puts on the annual yearling sales at Saratoga. The auction in the heart of the Blue Grass is also an annual affair. Well known stallions, broodmare, foals of this year, yearlings, and horses in training will be put on the mythical block.

It is my aim to establish a sales ring at Tanforan in the not distant future and that is one of the reasons for calling particular attention to the Kentucky doings. Every little while breeders and others have stock to be disposed of and experience has shown the best procedure is to assemble it at a convenient place and start the auctioneer's bell to ringing. No one can take issue with the proposition that Tanforan in the west, is an ideal spot for such vendues.

Lots have been consigned to Lexington by some of the most prominent establishments of the country, such as Mrs. Payne Whitney's Greentree Farm, Llangollen Stable (also the property of one of the Whitneys), Audley Farm, Leona Farms, A. B. Hancock, Belair Stud and Shoshone Stud.

I look forward with much interest to the time when the first of what I contemplate to be annual sales will be staged at my Tanforan at nearby San Bruno. Undoubtedly the majority of the offerings will be yearlings. Right now a number of new people are coming into the game and usually the newcomers want "babies" in order to watch them develop.

Following the windup of the race meeting at Tanforan which, as everyone knows, begins next Thursday, October 8 the plant will be thrown open to owners of yearlings. Permanent stalls will be provided at the head of the front stretch for the accomodation of the young colts and fillies and competent men will give them the primary education so important for their orderly development.

DAILY CITY RESIDENT SWALLOWS POISON IN FIT OF DESPONDENCY

Pharmacist Writes Note To Wife And Dies As Result Of Taking Strychnine

William E. Klos, 30, of Woodrow street, a pharmacist, committed suicide in his home, Friday morning of last week, by taking a large dose of strychnine sylphide.

The body of Klos was found by his sister, Mrs. Remi Sanders, of 147 Woodrow street, at 8 o'clock that morning. He had apparently been dead for several hours.

A note written to his wife, Louise Klos, was found later on the kitchen table.

A bottle and a glass containing traces of the deadly poison were on the kitchen sink.

The remains were removed to the mortuary establishment of W. C. Lasswell & Co. by Deputy Coroner Luella D. Pepper.

Klos is survived by his wife, Louise Klos, and two children—Billy Jr., 4, and Beverly, 2. Other relatives are two sisters, Mrs. Remi Sanders and Miss Katherine Klos.

Deceased had spent most of his life in Daly City. For some time he had been employed at Caesars drug store on Geneva avenue in San Francisco.

The funeral was held at 10 o'clock, Tuesday morning of this week. Cremation was in Olivet Memorial Park.

BAY BRIDGE CELEBRATION WILL BE OUTSTANDING BAY AREA EVENT

Day And Evening Parades To Be Most Elaborate Spectacles Ever Staged In This Vicinity

Thousands of inquiries have been received by San Francisco transportation officials and hotel managers in the past week for information on the San Francisco-Oakland Bay Bridge Celebration November 12, 13 and 14.

Leading hotels state that hundreds of people in San Francisco for the bankers convention, particularly from the middle west and eastern states, plan to return for the bridge celebration. Railroad, bus line and airplane offices also said requests for information on the celebration have come in not only from southern, central and northern California points, but Oregon and Washington as well.

In Remembrance Of Golden Days

It was a lovely affair. Chrysanthemums and roses in yellow cast a soft golden halo over the fiftieth anniversary of Mr. and Mrs. Richard Johns, celebrated in the home of their daughter, Mrs. Anna Huhn, 2531 San Bruno avenue, San Francisco. Papa and Mama Johns were former residents of Daly City and members of the Crocker Masonic Lodge and Crocker Chapter, O. E. S., called on their beloved brother and sister and tendered them congratulations, together with flowers and decorations befitting the day. A huge white bell draped in golden cellophane was especially designed to carry out an old English custom. Golden envelopes on gold ribbons hung from its trumpet mouth and each contained bright new pennies, which if traditional customs could have been carried out would have been thrown at the honored couple, but on account of their prolonged illness it was thought best to refrain from too much gaiety.

From 11 o'clock in the morning and on through the day, new and old friends called. Papa Johns, bedridden for almost a year, was carried to the dining room and propped comfortably in a cozy chair, where he enjoyed a six o'clock dinner with his immediate family and near relatives. Then photographs were taken of the bride and groom, both smiling back at the 50 years past, so full of happiness and accomplishment.

DALY CITY HAS COUNTY FIESTA MASS MEETING

Members of Fiesta Commission Explain Progress Of Arrangements

fruit and vegetable produce. "Sections for honey, eggs, products of domestic sciences and other 'side lines' are to be opened," Campbell said. Prizes will be awarded the best entries.

"The bird and fish lady," Mrs. F. M. Perkins, displayed optimism for her department. Many entries have been filed, and accommodations for the pets are well under way.

"The fiesta parade for 1936 is to be the largest and most colorful show ever aggregated for this event," declared Dave McCullough, parade chairman. Float entries are already rolling in. Two thousand school children will march, representing every section of San Mateo County. Each school will be given a pennant for participating in the show.

High school bands and a 25-piece accordion band will join the line of march, which is to start at 2:30 and follow the same route of the 1935 parade. Six cups will be awarded float winners.

Secretary Chester Lippman handled the presenting of pageant, publicity and music plans. Publicity is being disseminated by means of radio programs, windshield stickers, bumper strips, newspaper reader and display advertising, bill boards and speakers.

The fiesta pageant is to be Oriental in nature. C. V. Jones will have charge of all music of the show.

Concession space is about sold out, gate tickets are selling rapidly and the entire financial set up of the fiesta looks very promising, reported Mr. Roberts, the treasurer.

Miss Dorothy Jones, who will oversee school representation at the fiesta, reported that departments under her supervision were doing very well.

President Bruce S. Gibson informed the mass meeting that construction work, such as wiring, booth building, establishing a redwood grove effect downstairs and festival atmosphere upstairs in the stands was nearing completion.

Several hundred homing pigeons from distant parts of California will be released at the fiesta. To time their homeward flight will be interesting.

Fireworks will be displayed each evening, and a high point of the show will be reached Sunday afternoon at a gala rodeo in which will be entered many of the finest horses and most capable horsement on the west coast.

Harold Anderson, chairman of the speaker's bureau, told of addresses which had been made by members of his committee. He also stated that on request speakers would be sent out to address any group.

Judge Bettencourt spoke on prospects of farm growers exhibitions from Colma, Half Moon Bay and Pescadero. Hugh Smith of Daly City stated he would gladly give his support to the show. Daly City Councilmen Fahey and Cavagnaro reported local interest, and A. J. Bodien mentioned the fine followship to which the fiest has given rise. Mr. McAllister spoke of civic participation in the event.

Seth Cohn, chairman of the fireworks committee, declared that the fiesta would receive full measure of value for the money spent by his committee.

Mayor Paul Selmi of Daly City sat on the speakers stand and displayed genuine interest in San Mateo's annual floral show.

Until October 5, tickets for the fiesta will be on sale at McGraws Pharmacy at the rate of three for one dollar.

and report a decision to him at the next regular meeting.

A communication from E. Covarrubius, garage operator at Ocean avenue and Mission streets, requested that he be allowed to operate a tow car and give road service in Daly City. The matter was referred to the city attorney.

A. A. Goldstein, 398 Guttenberg street, requested the city council to take some action to prevent cars being driven over his property at the corner of Bellevue and Guttenberg streets. Goldstein stated that such trespassing was damaging his property. A motion referred this problem to the street committee.

The League of California Municipalities addressed a communication to the council thanking it for the Daly City display at the Santa Monica convention, held recently.

Joseph Maestri was granted a request to operate a ravioli factory at 6378 Mission street.

The Jefferson School District asked that school zones be marked at Market and Alemany and at San Pedro and Alemany streets near the Jefferson School in Colma district. A. J. Bodien was authorized by the council to comply with the request.

California State Department Division of Parks, in a communication, proposed a measure which prohibited the destruction of beaches for purposes of pleasure. This proposition, to deter certain types of oil drilling on beaches and thus to pollute the coastal waters, was placed before the council. The measure was laid over for investigation.

A request to construct a sign in the sidewalk area at San Pedro road and Mission street was submitted by Belli Company. A denial was decided on by the council because the body did not have complete jurisdiction over the area in question.

Fire Chief Chesney and Assistant Fire Chief Bodien reported that fire drills have recently been held in all local schools.

Eighteen dollars was allotted to Fire House No. 1 for floor repairs. An oral request was made to repair the roof and windows of Fire House No. 5. Mayor Selmi asked that this request be directed to the fire commission and stated that action would be taken through the proper channels.

Councilmen Fahey, Cavagnero and Police Chief Reardon attended a South San Francisco meeting of the League of California Municipalities. Cavagnero reported proposals for state and local development made at the meeting.

Councilman Sunderman reported that study is being given the water problem in the west end district. Detailed reports concerning the improvement in fire protection to be made in that section will be submitted at the next regular council meeting.

The pound report was made and ordered filed. Claims against the city, except one submitted by state compensation insurance, were ordered paid.

Mayor Paul Selmi, all councilmen and city officers were present. Minutes of the regular council meeting of September 14 were read and approved.

POINT SAN PEDRO ROCKAWAY BEACH

A large, conspicuous sign at the turn to the road, Roakaway Beach, announces the course to be taken by the new state highway where mysterious stakes, set in the ground from the levels to points over the cliffs, indicate the places where the cuts will be made for the road to go through. There has been some blasting in that vicinity, but more blasts have been heard from the locality of the old tunnel near Shelter Cove, on the line of the old coast railroad, where dredges have been actively at work for several months past. It's all very exciting, and this drowsy little community is rubbing its eyes, sitting up and looking around it to see what's happening. Those residents who love the quaint little coast villages for their quiet charm, are hoping that, in acquiring the comforts and conveniences that are being planned, they will not lose their delightful individuality. In our green nook in the hills, a combination of "make haste slowly," and according to modern procedure, gains ground as the wise way of doing things for the community.

The new tank constructed at the junction of Stanley and Livingston avenues by the Pedro Valley Water Company, tested to a capacity of over 375,000 gallons in a day, with the motor running continuously, without a moment' pause. A tremendous pressure of crystal clear water came to the connecting pipes served by the tanks, to the satisfaction of Mayor Roddy and his helpers.

New activities at Shelter Cove are indicated by the arrival there of big piles of lumber, bags of cement and just about a car load of nails. Galvanized nails, the same kind that they use in building a sailing ship. Something is doing on the beach at the cove. It might be a new house. Here goes to keep an eye on it. We'll report later.

Mrs. May Harrison entertained a luncheon party at her home in Shelter Cove last Wednesday. The affair was an expression of genuine Hawaiian customs, and the guests, with two exceptions, were native islanders. The luncheon included Hawaiian dishes, such as poi, raw fish, salmon cooked in the delicious native fashion. There was ukulele music, singing and dancing of traditional dances by the guests, during and following the luncheon. Those present were Princess Sybil Dominis, daughter in law of the famous old queen, Lilikiulani; Violet Adamson, Amoi Plessler, Alice Cranert, Mrs. Rogers, American world traveller, who has spent much time in Hawaii, and Mrs. Ethel Haugaard of Shelter Cove. Mrs. Harrison has decided to name her house "Aloha, Kaluna," in honor and memory of her late husband, "Kimo" Harrison, whose native island name was "Kaluna." Mrs. Harrison is making extensive alterations in her house, retaining carefully the true Hawaiian atmosphere in all the furnishings and decorations.

READ THESE FACTS

Hiding under the title of "Retail Store License," Proposition 22 on the November ballot is really a tax on you. Proposing to tax individual stores $1 a year and *chains $500 for each store over nine,* it must be defeated *because:*

It Would Raise Prices

The U. S. Federal Trade Commission says: "If the ability to undersell, based on greater efficiency or on elimination of credit and delivery cost is destroyed by taxation it is the consuming public which will really pay the tax and not the chain."

It Would Be Unfair

It is an attempt to destroy competition by taxation.

Small chain stores would be taxed up to 500,000 times as much per dollar of sales as big department stores.

It Would Hurt California

Chain stores benefit California consumers, farmers, employment, taxpayers, investors and property owners. To cripple them is to hurt all California business.

GOVERNOR LANDON CHANGES MIND

One of the most embarrassing problems confronting the Republican nominee in this campaign is the necessity of squaring the utterances of Candidate Landon with those of Governor Landon. In the execution of this task the nominee's nimbleness and resourcefulness are subjected to a severe test.

In his speech of acceptance Candidate Landon inveighed against delegations of further powers to the President. He even warned that the safeguards against "tyranny and oppression" must not be cast away.

"In its ultimate effect upon the welfare of the whole people," he said, "this, then, is the most important question now before us: Shall we continue to delegate more and more power to the Chief Executive, or do we desire to preserve the American form of government? Shall we continue to recognize that certain rights reside with the people, that certain powers are reserved for the states and that certain functions are delegated to the federal government?

This was the solicitous inquiry of Candidate Landon, whose soul was stirred by the spectre of rising despotism.

But Governor Landon suffered from no such misgivings. The jitters about tyranny and oppression did not begin to harass Mr. Landon until after the Cleveland convention had completed its work.

Back in 1933 he was not alarmed about the delegation of extraordinary powers to the President to combate the economic emergency. On the contrary, he strongly advocated such powers and on one occasion stated that the Founding Fathers realized that in a crisis the business of the nation "could not be conducted with a debating society."

Here are his words as quoted in the Kansas City Journal-Post of May 2, 1933.

"Business leaders apparently are paralyzed. They have lost the vitalizing energy which developed this country from a wilderness to a great industrial nation.

"I think we should support our President in this crisis the same as we always have done in time of war. . . .

The makers of the Constitution realized that in a great emergency the country couldn't conduct business with a debating society."

Somewhat earlier, in a speech at Kansas City on February 11, 1933, he said:

"We are in a battle as vital and dangerous as any war has caused. Why not give the President the same powers in this bitter peace-time struggle as we would give him in time of war?

"Our battles are on as wide a front as those of the greatest war in which the world has ever engaged. We cannot sit idly by and let things drift. We have never felt it a confession of weakness in a democracy to repose in our President the greatest powers of any government head in the world in time of war."

Now that Candidate Landon is seeking to displace the President, he does not hesitate to attack Mr. Roosevelt for having accepted some of the emergency responsibilitis that Governor Landon said he should bear.

The American people will not be at a loss to account for the sudden reversal of Mr. Landon's convictions.

They know what the itch for office does to a man.

ADVERTISING PAYS

In a certain Eastern city an energetic high school graduate has established for himself a business of washing automobiles. His method of advertising gets results.

Armed with the necessary equipment, he spends some time in the downtown section of his home town washing windshields of cars while the owners are away. When the owner returns he finds a clean windshield and a small card tucked in the corner which reads: "Your windshield was washed by E. C., and he will be glad to wash your entire car for fifty cents. Just call 247W."

Vacancies To Be Filled For Bandmen

The postmaster at Daly City announces that the United States Marine Corps has vacancies for a limited number of qualified musicians, able to play by note the flute, piccolo, trumpet, trap drum, trombone, banjo, cornet, violin, bass drum or piano.

Accepted applicants will be transferred to the Marine Corps base at San Diego for recruit training. Upon completion of recruit training, they will be assigned to a band school for a course of instruction, after which they will be detailed to fill vacancies in the various post bands abroad and in the United States.

Additional information may be obtained by writing to the Marine Corps recruiting station, Room 46, Federal Building, San Francisco.

Bank Of America Advertising Best

Bank of America advertising, as featured in 400 California newspapers, has just received the highest official point score of any western bank, according to advice received from Vincent Edwards & Co., New York bank advertising authority, which makes the award annually.

The award is made for the year ending October 1 on a basis of promotion, idea, copy, appeal and layout.

First place for the Vincent Edwards award was won by Bank of America in 1935 and 1933, and in 1934 the bank won second place.

For the past 22 years, Charles R. Stuart, of San Francisco and Los Angeles, has acted as advertising agency for Bank of America.

ROOSEVELT POLICIES PLEASE NOTED WRITER

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

Intelligent presentation of the reasons for the return of President Roosevelt to the White House is made by Gerald W. Johnson, editorial writer on the Baltimore Evening Sun. The newspaperman cannot stand for all that bunk about the President being all right as a magnetic personality, but not much in handling either domestic or international problems. Johnson says

"I am not for Roosevelt the man, I am for Roosevelt the statesman."

The editorial writer frankly admits he is bored by fulsome talk about the President's "charm." In typically picturesque newspaper English he says:

"I wouldn't give the traditional whoop in Hades for the famous smile, the golden voice, the charming manners. If he grinned like a gargoyle, croaked like a rain-crow and had the manners of a Hoover chasing veterans out of Washington, I would still be for him—in fact, I am not sure that I wouldn't like him better."

* * *

One of the oft-repeated charges against the administration by the "outs" trying so feverishly to be the "ins," is that it is extravagant. Johnson, who has made a penetrating study of conditions in the country, declares he is for the President because he is not extravagant. He truly defines extravagance as spending money without getting anything worth while for it. And again he truly asseverates Hoover's Farm Board was gross extravagance because it spent money on a hopeless project. Just recall, says the editorial writer, how troops were fighting milk farmers in the middle west in the latter days of the Hoover regime. Listen to these wise words:

"That fire, instead of spreading, has been quenched, and quenching it was worth the money if we had received none of the public works that have been built."

As the eastern newspaperman points out, the present administration has been alert, honest and amazingly successful. Why take the risk of changing it?

* * *

As the President remarked the other day, he can justly be accused of idealism, but in these days even a small amount of idealism may not be a bad thing. We all know so-called practical men have ruined some of the most important countries in the world. We must join Robert Burton, author of the famous book, "Anatomy of Melancholy," in his expression of the consequence of an utterly selfish philosophy of life:

"Those men which have no other object than greatness, wealth, authority, etc., are rather feared than beloved; they neither love nor are loved; and howsoever borne with for a time, yet for their tyranny and oppression, griping, covetousness, currish hardness, folly, intemperance, imprudence and such like vices, they are generally odious, abhorred of all."

The book was written 300 years ago, but is so applicable to modern conditions we cannot forbear quoting once more·

Monsters of men as we are—Dogs, Wolves, Tigers, Fiends, incarnate Devils—we do not only contend, oppress and tyrannize ourselves, but, as so many fire-brands, we set on and animate others; our whole life is a perpetual conflict, a set battle, a snarling fit; the goddess of discord is settled in our tents, all are contaminated, opposing wit to wit, wealth to wealth, strength to strength, fortunes to fortunes, friends to friends, as at a seafight, we turn our broad sides, or two millstones with continual attrition, we fire ourselves, or break one another's backs, and both are ruined and consumed in the end."

Probably President Roosevelt has committed those wise words to memory and has ever in his mind some plans to prevent the United States from going the way of other nations, which are ruthless in a Burton way. Above all, we must maintain our individual liberties; not only our own, but those of our fellow citizens. That, we take it, is the essence of the philosophy of that conservative statesman, Franklin D. Roosevelt. Keep him in the White House four years more to continue his great work in combating the tremendously powerful forces of reaction.

'Stick By Roosevelt,' Johnson's War Cry

Brigadier General Hugh S. Johnson, former NRA administrator, in an address at a Democratic rally in Buffalo, called upon "poor people" to "stick by the only President in history who ever threw the force of government into the fight for social justice—Franklin Roosevelt."

EXPERIENCED HOUSEWIFE CLUB

(By Maude Larue Ives)

"Pleasing the family is our desire,
And to this end, we never tire."

This column is also open to future experienced housewives, or should any husband or son believe himself to be an accomplished cook it is up to him to prove it through this column, for a very great man once said: "As a man thinketh in his heart, so is he."

Miss N. S. F. Rickmann, 421 San Diego avenue, Daly City, sent in two very tasty sounding recipes, one for Sour Cream Cookies and the other for Jam Cake. We are printing in this week's column the

JAM CAKE

One-half cup shortening, one and one-third cups brown sugar, two eggs, two-thirds cup strawberry or blackberry jam, two-thirds cup chopped nuts, two-thirds cup seedless raisins, two and two-thirds cups flour, one teaspoon salt, four teaspoons baking powder, one teaspoon each of cinnamon and nutmeg, two-thirds cup milk.

Blend shortening, sugar and eggs well, add jam, nuts and raisins. Sift dry ingredients and add alternately with milk. Pour into a greased loaf pan and bake in moderate oven (350 degrees F.) about one hour.

ICING FOR ABOVE

Two egg whites, one-eighth teaspoon salt, one and one-fourth cups granulated sugar, one-half cup red currant jelly, two tablespoons cold water. Mix jelly, sugar and water. Cook slowly until syrup forms a soft ball in cold water (238 degrees F.). Pour slowly over stiffly beaten salted egg whites. Beat until right consistency to spread.

OLD FASHIONED SHORTCAKE
(From The Farmer's Wife)

Two cups flour, four teaspoons baking powder, three-fourths teaspoon salt, two tablespoons sugar, one-third cup shortening (preferably salad oil), one egg, one-third cup milk and melted butter. Mix and sift dry ingredients, mix in salad oil with a fork. Combine beaten egg with milk and add slowly to the dry mixture, making a soft dough. Roll out on lightly floured board to about one-third inch thickness. Cut into shapes with large biscuit cutter. Spread one-half biscuits with melted butter and cover with other biscuits. Bake in hot oven (400 degrees F.) about fifteen minutes. Split biscuits, fill with crushed strawberries, sliced peaches or shredded pineapple combined with sugar to taste. This shortcake may also be rolled to the above thickness and then patted into a long cake pan or two square cake pans. If baked in the long tin, when done, cut through center and place fruit between layers. This recipe will make about six small servings or four large helpings.

HOUSEHOLD SUGGESTIONS

In preparing cold icings use milk, water, coffee or other liquid desired, boiling hot this will eliminate any raw taste of sugar, cocoa or chocolate.

Are you clever at rhyming? If so, send in a jingle to brighten up this corner along with a recipe to the Experienced Housewife Club, Daly City Record, 3317 San Jose avenue, Daly City, California.

CELEBRATION OF BAY BRIDGE WILL BE GREAT EVENT

Day And Evening Parades To Be Most Elaborate Spectacles Ever Staged In This Vicinity

(Continued from Page 1)

California have accepted invitations to enter floats in the day parade, which starts from the Ferry Building at 2 p. m. on November 13. Chirman Franck R. Havenner of the celebration committee says that leading artists from all over the bay region are designing fantastic and brilliant modernistic floats for the night parade as well. This parade will start at 8 p. m., November 14.

With more than six miles of floats, bands and drill teams in line, the daylight parade, on the afternoon of November 13, will set a new high peak for variety and picturesqueness. There will be at least 60 floats in both the daylight and evening parades—each with its accompanying brass band. A typical float in the "days of the past" division will show the building of the first bridge in San Francisco in 1844, by Alcalde Hinckley, across a lagoon where Portsmouth Square now stands.

In the night parade, starting November 14 at 8 p. m., featuring historic and romantic bridges of the world, from the earlies times to the present, the first known bridge builders, the monkeys, will have a float to themselves. There will be a chain of a dozen ring-tailed small stuffed monkeys stretching from a palm tree on one islet to a palm on the other. Papa and Mama and Baby Monkey will be depicted walking across on the backs of the other monkeys (a zoological error, but pardonable), while Mama Monkey thumbs her nose at a hungry alligator yearning for a meal of monkey meat.

Man's first bridge, a log felled across a stream, will be the subject of another float. One of the prettiest floats will be a creation in blue and white, called the Willow Pattern Bridge, after the famed willow pattern chinaware design brought to England in the eighteenth century from China. There will be Chinese on this float, attired in appropriate costumes. The Chinese Society is also planning a separate float of its own.

Other noted bridges of the world will be shown, ranging from the Bridge of the Heroic Horatius (Roman history), to the famed Scotch rustic bridge of Tam O'Shanter's ride, the Cloud Bridge of Valhalla (German), the Bridge of San Luis Rey, by the South American Societies; the Venetian Bridge, by the Italian residents; the Mayan Bridge, done in orange and green; and many other spectacular effects. The general color scheme will be the rainbow, official color scheme of the celebration.

A regal parade background of rainbow colors along Market street is being designed. It will represent the brilliantly colored and lighter continuation of the San Francisco-Oakland Bay Bridge, whose completion and official opening on November 2, the first day of the fiesta, is the incentive for the celebration, and the greatest forward step in the history of San Francisco's growth since it was founded in 1776.

There are three sections to the daylight parade on November 13—the past, present and future of San Francisco.

The second section will include the floats representing the various counties in central and northern California. These floats will depict the industries, agricultural products, attainments of labor and present-day transportation in the state. The third section is devoted to the future of the bay region—imaginative possibilities of air travel, the Golden Gate International Exposition to be ready in 1939, the city's skyline of the future and the uniting of the metropolitan areas into one great city.

During the three day fiesta the larger downtown stores will unite in displays of seasonable formal and sports apparel and the latest holiday merchandise. Units of informal musicians wearing appropriate costumes will stroll along the streets of the shopping district, entering the stores and singing for the entertainment of shoppers and store personnel. The musicians will include bagpipers, guitarists, mandolin players, hillbilly singers, accordion players, and even "leedle German bands." They will play every day of the celebration.

The bridge will be formally opened at 10 a. m. on November 12.

Thank Friends

We wish to thank our many friends for their kind deeds and words of comfort during these last few trying days. It is greatly appreciated.

MR. and MRS. REMI SANDERS.

Lesson Sermon Of Christian Science

"Vanity of vanities, saith the Preacher, vanity of vanities all is vanity." These words from Ecclesiastes comprise the Golden Text to be used Sunday, October 4, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The subject of the Lesson-Sermon will be "Unreality." Included among the Scriptural selection will be: "I will sing of the mercies of the Lord for ever; with my mouth will I make known they faithfulness to all generations. . . . . For a thousand years in thy sight are but as yesterday when it is past, and as a watch in the night. . . . So teach us to number our days, that we may apply our hearts unto wisdom" (Ps. 89: 1; 90: 4, 12).

The following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included: "Except for the error of measuring and limiting all that is good and beautiful, man would enjoy more than threescore years and ten and still maintain his vigor, freshness, and promise. Man, governed by immortal Mind, is always beautiful and grand. Each succeeding year unfolds wisdom, beauty, and holiness" (p. 246).

PROCLAMATION

From Governor's office to the press.

Inasmuch as the newspaper of today is not only a highly organized business enterprise but a social institution of general public interest, it it fitting that a period of time be set aside for special consideration of its merits.

The editor and his staff of associates gather and disseminate wide and varied news items of human interest. Through their professional and technical training they naturally develop a comprehensive appreciation of life that makes them constantly conscious of the fact that civilization is an ever changing series of events. Covering these events for the purpose of analyzing and recording them in such a way as to provide accurate information for the reader is a responsibility that deepens their sympathy, broadens their vision and strengthens their sense of public service.

In presenting incidents of local, state, national and even international concern under this type of leadership the newspaper becomes an agency of civic and spiritual progress; and as a member of a great fraternity its influence reaches even to the ends of the earth.

In view of the importance of the press in moulding public opinion, now, therefore, I, Frank F. Merriam, Governor of the state of California, do hereby proclaim the period between October 5 and 12 as "Newspaper Week" in this commonwealth.

In witness whereof I have hereunto set my hand and caused the Great Seal of the state of California to be affixed this 16th day of September, A. D.

(Seal)

(Signed) FRANK F. MERRIAM, Governor of California.

Attest:

(Signed) FRANK C. JORDAN, Secretary of State.

Under-Inflated Tires

Tires that are under-inflated cause hard steering and uneven tire wear and also have a tendency to produce skidding or "rolling."

Romeo And Juliet Stays For Fourth Week At Geary

Registering the most profuond sucess of any Shakespearean play ever offered in San Francisco, the current film production of "Romeo and Juliet" is being held for a fourth week at the Geary Theater.

Starring Norma Shearer and Leslie Howard, this picture marks the first talking version of this age-old romance that the screen has yet offered and incidently the last production to be made during the brilliant career of Irving Thalberg.

With two years of time, the efforts of countless numbers of technicians, research experts, giants in the field of literature and the best of Hollywood's directorial talent, "Romeo and Juliet" is said to have cost more in Metro-Goldwyn-Mayer money than any previous picture made by this company.

Adding charm, intense drama, thrilling action and brilliant wit to the leading characters in the play are many stars of note, with followings on both stage and screen. In addition to the Shearer-Howard combination so highly praised in the romantic leads, the list also includes John Barrymore, Basil Rathbone, C. Aubrey Smith, Edna May Oliver and many others.

The film is being shown on a twice-daily basis, with matinees at 2:15 every day and every night at 8:30. All seats are reserved, and scaled from 55c to $1.65, the lower brackets being expressly set for the great number of students attending the run.

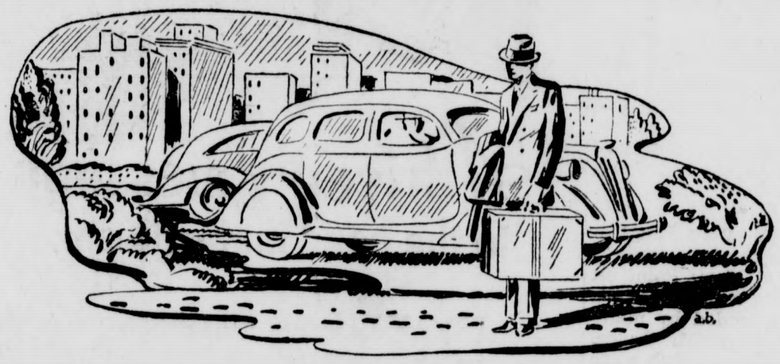
Spanish Classes Free To Public

El Nuevo Circulo Espanol announces the opening of two series of free classes in Spanish conversation. These classes will meet in the assembly hall of the Shreve Building, 210 Post street. Classes will meet on Fridays at 12 noon and at 8:15 p. m.

The classes are open to the public and are absolutely free; no registration is necessary.

El Nueva Circulo Espanol is a society for the propagation of the Spanish language as a means of developing commercial relations between the United States and Latin America.

Were you ever alone in a strange city?



If you were you know the true value of this newspaper

Alone in a strange city. It is pretty dull. Even the newspapers don't seem to print the things that interest you. Headline stories are all right, but there is something lacking. That something is local news.

For—all good newspapers are edited especially for their local readers. News of your friends and neighbors is much more interesting than stories of far off places. That is why a newspaper in a strange city is so uninteresting. And that is why this newspaper is so important to you. This is Newspaper Week. It's a good time to get to...

In response to the emergency brought about by the forest fires in the county, the San Mateo County Chapter American Red Cross, has been preparing sandwiches and coffee for the men fighting the fires.

The work is continuing and will be kept up so long as there is need, under order from Fire Warden Bert Werder. So far, they have made 3,600 sandwiches and about 40 gallons of coffee.

The Red Cross Canteen Committee, assisted by members of the Burlingame and San Mateo American Legion Auxiliaries, have been, and are still, hard at work.

More than 7,000,000 persons have visited the San Diego Exposition.

STATEWIDE SURVEY OF ANNUAL EXPENDITURE STATE SPORTSMEN

The results of a statewide survey to determine annual expenditures of California sportsmen are made public by the Fish and Game Development Association, statewide wild life conservation body. Conducted over a four months period and in each of the 58 counties of the state, the survey reveals that more than $63,000,000 was spent in California during 1935 by anglers and hunters.

Based on total license sales of slightly less than 400,000, the breakdown of figures reveals that sportsmen spent $16,916,215 for supplies and wearing apparel; approximately $10,500,000 for automobile transportation costs and piling up the surprising total mileage of 316,000,000 miles. Sportsmen traveled another 11,000,000 miles by airplane, boat and train.

Hotels, inns, resorts and camps received a total of $11,248,323 from the sportsmen, while the sporting goods dealer sold $24,429,203 worth of firearms, rods, tackle, ammunition and similar equipment. Dealers in automobile tires, accessories and repairs received approximately $10,000,000 as their share of the "melon" distributed by the sportsmen.

Fishermen and hunters of California have a total investment of $128,984,728 in equipment. Every angler in the state spent on the average of $116.80 last year, while the hunter, for the same period of time, spent $115.58. The angler spends $1.22 more every year than does the hunter.

Last year 235,000 license holders bought both hunting and angling licenses, or 58 per cent of the total licenses sold. The ratio between hunting and fishing licenses purchased is 56.3 per cent for fishing and 43.7 per cent for hunting.

Hunting and fishing clubs have an average investment in land and equipment of $36,995, while annual expenditures of both types of clubs is $2,495. The fishing clubs spend on the average of $1,573 each year for operating expenses and the hunting clubs $2,906.

In summarizing the results of the survey, the president of the association says:

"The Fish and Game Association makes a major contribution to the State of California as a whole in the completion of this survey. As far as is known these reports are the most accurate, comprehensive and painstaking ever compiled. The original cross section of names was fairly made and selected at random, and individual returns, compared one with another, show a fairly even expenditure for a large and widely separated group of men; after making any reasonable allowance or adjustment for any cause, the grand totals still present an astonishing and incredible estimate of the value of the sport angling and hunt-"industry" to the state of California.

"Fishing and hunting by the sportsman rank as one of the state's greatest industries and distributors of money, and they take their place among the four leading industries of California in annual financial return. From this report it is obvious that the betterment of hunting and fishing conditions automatically increases the number of license purchasers and in like ratio increases the expenditures of sportsmen.

"With a total of approximately one-half million license sales—an approximate increase of 25 per cent over the number the above figures are based upon—the annual total expenditure will in like ratio be increased approximately 25 per cent. Indications are that during 1936 more than one-half million licenses will be sold in the state, which means that approximately $80,000,000 will be expended this year in California by hunters and anglers."

All compilations were made by one of the national agencies, it is pointed out by association officers.

The San Mateo County Supervisors and San Francisco Board of Supervisors deserve a vote of thanks from all residents of the coast side for their help in putting over a celebration that advertised the new road. And last, but not least, Billy McCarthy, the hard working publicity manager for San Mateo County, deserves praise.

Leaking Gasket

When air bubbles or a heavy oily scum appear on top of the water in the radiator it may indicate a leaky cylinder head gasket.

Cylinder head bolts should be tightened with the motor warm.

Most New Plugs Good

Buying spark plugs, like buying automobiles, has been made considerably easier these days by the fact that very nearly all plugs are good plugs. This does not mean, however, that any plug will perform perfectly in any car.

When replacing worn out plugs, it is wise to follow the advice of engine manufacturers who usually specify the right type of plug for their products.

Wet Brakes

Brakes may fail to hold after a car has been washed, and this condition is more noticeable with linings that absorb a large amount of water.

When brakes are wet the water acts as a lubricant and slipping results. This same type of lining may also grab if there is a slight film of water. This is caused by the water mixing with dust on the lining and forming a gummy substance.

A friendly message
to the hand that writes the check

DO YOU hate to write checks, make payments on bills, keep cash on hand for incidentals? There is so much to pay out month after month running a household. A monthly charge like your gas bill includes many items you pay for at one time. It simplifies the keeping of accounts.

If you were able to itemize your gas bill—so much for cooking, so much for baking, so much for heating water on wash day, daily baths and showers, so much for heating water for cleaning floors and woodwork, etc., you would have an opportunity to see how far your gas dollar goes.

During the month your hand turns a valve or faucet a thousand times and more for the many services gas renders easily, quietly and economically. Measured against these many services the check for your gas bill is relatively small. The cost for each service is a trifling sum. There is no better way to look at the economy of gas than to realize the thousand and one small, but important, jobs your home demands of gas service. The dollars you pay for Gas actually buy more than any other money you spend.

Judge Addresses Jefferson Students

Fletcher Cutler, prominent jurist of the bay region, delivered a very interesting address to the students of Jefferson Union High School, Friday of last week. He spoke on California history in such an interesting manner that the address sounded more like a story than merely historical facts. The judge covered the golden state from the time pioneers first set foot on California soil in 1542 until the present day.

Judge Cutler told of some of California's earliest settlements and early missions; he told of the different countries that had control of California at various times; he mentioned some interesting facts in connection with the famous gold rush; he told of how California was acquired by the United States and of how this state's admission affected the question of slavery. In fact, he left out no important factors in California's development.

It was plain to be seen that the students enjoyed the program. They showed this by the strict attention they gave the speaker.

It is sometimes difficult for a speaker to deliver an address that is entertaining as well as educational. Judge Cutler proved himself a very capable speaker by accomplishing this.

Watch Out For School Children

Millions of school children are back at their desks again. From now until next spring they will be trooping daily to and from their school buildings. Most of them walk, and in doing so have to cross busy streets. All motorists are urged to be extra careful in driving near schools.

When you see a sign reading "School—Drive Slow," heed that sign. It was put there to protect young lives. In the last few years, children have led the way in traffic safety. Children under fifteen had 200 fewer motor vehicle fatalities in 1935 than in 1934. Let's help to make a good record better.

Saiz Speaks To Alto Exchangites

Clive M. Saiz, instructor in American history at Jefferson Union High School, was the guest speaker at the Palo Alto Exchange Clubs dinner meeting at the President Hotel there, Tuesday evening of this week.

Saiz took as his topic (American—1936," an account of an extensive motor trip which he enjoyed during the summer, stressing first-hand conditions of millions of Americans in our southern states.

The table was decorated in green candles and green paper baby buggy candy baskets.

The guest of honor received many lovely gifts.

Those present were Mesdames Hazel Babb, Mary Conci, Dot Glover, Fay Norton and Pearl Affolter.

Unit Finishes Membership Drive

Alice Reilly, membership chairman of Daly City Unit, American Legion Auxiliary, announced that she has completed her membership drive and sent her quota to the department office. On Tuesday evening of this week the final count was made and the committee met at the home of Mrs. Julia V. Jordan.

On Wednesday of this week a card party was held in Legion Hall, with Ann Welsh as chairman.

The next regular meeting will be held, Wednesday evening of next week. Mrs. R. L. Crane will preside. Before the meeting the members will be asked to sew for the Country Fair to be held in the near future.

Highway 'Massacre' Decried By Court

Judge Michael A. Musmanno in Pittsburgh, recently compared what he termed the "slaughter" on the highways by intoxicated automobile drivers with "the most blood-curdling days of Indian massacres."

The judge said: "Every man who operates an automobile while under the influence of intoxicating liquor is a potential man slaughterer." He added that anyone coming before him on such charges "gives public notice that he wants to see what the world looks like from behind prison bars."

COUNCILMAN FOR DALY CITY TELLS OF TRIP ABROAD

Wonderful Trip Outlined—Sorry They Could Not Stay Longer

(Editor's note—Councilman Julius Twesten, accompanied by his wife and daughter, recently returned to Daly City from a five months tour of Europe. Councilman Twesten here finishes the story of his trip, the first part of which was published in The Record on August 7.)

HIS OWN STORY

After visiting with all our friends and relatives, we set out to see something of Germany, an opportunity which we missed when we were young.

First, we spent eight days in Berlin and gained a wonderful impression of this beautiful, modern city. We visited old castles, museums, the famous palace of Frederick the Great in Potsdam, the wonderful Olympic Sports Field and saw a little of the night life in some of its theaters and clubs.

Then we continued our trip, remaining a few days in each of the following cities Leipzig, Dresden, Munich, Mayence, Heidelberg, Cologne and Hanover. Things that impressed us most were the gayety and friendliness of the Bavarian people in Munich, the marvelous new museum in that city, the culture and the number of fine universities in Leipzig, the arts of Dresden and Munich, the natural loveliness of Heidelberg and its surroundings, the dignity of Hanover and the gorgeous gothic cathedral of Cologne.

All the cities combine the very old and the very modern. There are types of architecture, featuring framework structure and high gables, which one can never see in this country. Many of the streets are still cobblestoned and crooked. The highest modern building we saw was eleven stories. We took the beautiful Rhine trip by boat from Mayence to Cologne—hills on either side, some covered with vineyards, others of sheer rock and topped by majestic castles, fortress, cathedral ruins and monuments. The trip lasted nine hours.

We were treated wonderfully everywhere. Everyone was busy and seemed to be happy, but, of course, the German must be contented with only a few of the luxuries which we enjoy in this country.

We left Germany on August 28 and eight days later arrived in New York. This was a great thrill for us. We stayed there four days and enjoyed ourselves immensely. San Francisco is really just a "one-horse" town in comparison to this huge, busy city. What pleased us most was Radio City and the other buildings of Rockefeller Center, and the Empire State Building.

We stayed four days in Washington, D. C., a lively and beautiful city. We stopped for a day at Grand Canyon, Arizona. It is indeed a wonderland.

The entire trip was comfortable and enjoyable. Perhaps the most thrilling moment of it all was the sight of the San Francisco lights late on the evening of September 11 when we saw our "home town" once more after being away over four months.

Arrives Home After Paris Visit

Miss Alice Dormoy, sister of Peter Dormoy, who spent the past year visiting her sister, Mrs. Louis Charvet, in Paris, France, arrived home, Monday evening of this week, very happy to be again in Daly City.

Miss Dormoy is convinced there is no place like California. She says the weather in France is very severe and living expenses are high, with pork chops at 35 cents each, an average leg of lamb $3, eggs 10 cents each and 50 cents for a pound loaf of bread.

Celebrates Her Twelfth Birthday

Mary Hill, daughter of Mr. and Mrs. Leslie Hill of Vista Grande avenue, celebrated her twelfth birthday by entertaining a group of young friends at the home of her parents, Thursday afternoon of last week.

Games were enjoyed during the afternoon, after which dainty refreshments were served, a huge brithday cake occupying the center of the table.

The guests were Jean Durkee, Marjorie Rogers, Evelyn Bickel, Minnie Jorgensen and Loraine, Ethel and Hazel Hill.

Light Is Charm Of New Office

Dr. W. J. Lantheaume, for some time located at 6 Wellington avenue, recently moved his dental office back to the old corner, 6300 Mission street, the new Masonic Building. You will be impressed by the cheerfulness of the suite of rooms which are so light that probably no artificial illumination will be necessary during daytime hours.

The doctor is installing an additional dental chair and will conduct two offices that he may better serve his ever increasing clientele.

NO NEWSPAPER NEXT WEEK!

If all the newspapers quit tomorrow . . . think of the things you wouldn't know

Where is Babe Ruth now? Who was elected supervisor? How did that automobile crash happen? What is the price of eggs? Why are taxes so high? The answer to questions like these is today's news.

But without newspapers you could not get the answers. You could be sure of few things. For now alert reporters ferret out the truth; fearless editors print *facts*, not rumors. Every news story is rechecked for accuracy, for important details, for the news behind the bare facts. You may well believe *everything* you read in your paper.

This newspaper is yours. It was edited especially for you. This, being Newspaper Week, is a good time to find out more about how this newspaper is made and why life would be pretty dull without it.
